

Capability Statement:

Curriculum Development

We design and deliver materials for a wide variety of intercultural, and diversity, equity, and inclusion applications. Our curricula account for who learners are, in each learning context, so as to maximize learning.

CORE COMPETENCIES

- Instructional design for intercultural competence, DEI goals, and team building.
- Content development for effective communication across differences.
- Evidence-based techniques and attention to learner needs and experiences.
- Program facilitation of learning experiences on multiple platforms, with particular skill in virtual learning across disparate locales.

DIFFERENTIATORS

- 100% customized to client need, context, and timeline.
- Experience with complex, multi-site organizations.
- Demonstrated capacity to work with diverse, local collaborators in 30+ countries.
- Broad network of internationally-recognized thought leaders.
- Every team member has 20+ years of experience designing curricula
- Demonstrated success across multiple government agencies and sectors.

COMPANY DATA

Our customized learning experiences are based on principles of backward design, to enable transformative learning whether in person or virtual.
