

Capability Statement:

Culturally Competent Trauma-informed Care

We provide trauma-focused psychosocial intervention workshops for resilience building and recovery. We also provide guided curricular materials for use in school, community/social organization, and non-profit contexts for psychosocial support.

CORE COMPETENCIES

- Culturally responsive curriculum and training design for trauma-informed care.
- Train-the-trainer workshop delivery in post-conflict and emerging recovery regions.
- Evidence-based techniques and attention to cognitive and emotional learner needs and experiences.
- Program facilitation of learning experiences on multiple platforms, with particular skill in virtual learning across disparate locales.

DIFFERENTIATORS

- Team members hold Virginia Psychologist License, Youth STAR trainer certification
- Team members have lived and maintain network in Ukraine
- Project staff with language proficiency in Russian, Ukrainian and Ruthenian
- Experience with complex, multi-site/org. projects
- Demonstrated capacity to work with diverse, local collaborators in 30+ countries
- Broad network of internationally-recognized thought leaders.

COMPANY DATA

Our customized learning experiences are based on principles of backward design, to enable transformative learning whether in person or virtual.
