

# Professional Training and Organizational Analysis

We help individuals and organizations flourish through change, providing dynamic coaching and assessment for intercultural, agile and executive contexts. We also design and create materials for a wide variety of intercultural and inclusion applications. Our programming accounts for who learners are in each learning context in order to maximize learning.

## CORE COMPETENCIES

- Coaching for teams and individuals based on a human-needs framework.
- Ecological systems approach to organizational analysis.
- Content development for effective training in DEI, intercultural competence, and team building.
- Collaboratively-developed strategies to strengthen workplace systems and processes.
- An asset-based approach to facilitate team building and increased team function.
- Program facilitation of learning experiences on multiple platforms, with particular skill in virtual learning to connect people across distance.

## DIFFERENTIATORS

- 100% customized to client need, context, and timeline.
- Experience with complex, multi-site organizations.
- Certified in multiple assessment instruments.
- Certified Scrum Master and Product Owner.
- Combine intercultural and executive coaching to address complex workplace challenges.
- Demonstrated capacity to work with diverse, local collaborators in 30+ countries.
- Each team member has 20+ years experience with professional development

## COMPANY DATA

Executive coaching helps emerging leaders, middle managers, and executives identify and achieve their goals. Our approaches to organizational analysis focus on assets within a system that can be leveraged to solve problems and innovate.
